Dear Arnold

I sent this letter in this way only to be sure it was not mislaid by one of the people in your office.

I believe you should consider finding a way of gracefully avoiding the celebration at Whitesville on Labor Day. Word has reached me that definite plans are underway to attempt to kill you at that meeting. My information is that the plan even goes so far as to consider the placement of a remotely controlled bomb at one of the places it would be sure to be close enough to you to be effective. I consider my informant to be reliable and he would have nothing to gain by lying. I know too, that he strongly supports your leadership in the union.

I think too, that you should take steps to carefully investigate the fitness for office demonstrated by [redacted] You may know it already, but it wont hurt to tell you again, [redacted] is working to discredit the contract at every chance he has, at beer joints, pool rooms, and other places he finds small groups who will listen to him. He also takes every opportunity he finds to refer to you as uneducated and unfit to hold your job, allowing the operators to do as they please so much he believes you are on the operators payroll too. At the very least, [redacted] must be watched, the methods he is using in [redacted] are certain to cause a prolonging of the present unrest in the industry. Many men take these bleats from [redacted] as fact, reasoning that with his position he has access to the facts and what he says is the true gospel. b6 b7C b7D

[redacted] Charleston, W. Va., furnished the following voluntary information:

He is [redacted] ARNOLD MILLER, President of the United Mineworkers of America (UMWA), and has been in close contact with MILLER since MILLER became President of the UMWA. Approximately two weeks ago, a source he, [redacted] considers to be reliable, informed him that he, the source, believed it would be unwise for MILLER to attend the UMWA rally to be held in Whitesville, W. Va., on Labor Day, September 1, 1975. The source stated he had heard talk among members of the UMWA in the Boone County area which caused him to believe MILLER's safety might be in jeopardy if he went to Whitesville on September 1, 1975. The source stated some of the members of the UMWA are opposed to the manner in which MILLER has conducted his office since assuming the presidency of the UMWA. Some of these individuals are currently involved in the wildcat strike in which the UMWA is engaged in West Virginia. The source stated he had heard discussions which were critical of MILLER while he was in poolhalls and other places in Boone County, where the miners congregate. The source mentioned the ready availability of dynamite in the coal mines and stated it would be no problem for coalminers to construct a bomb if they desired to do so. The source also stated a bomb could be rigged to detonate by remote control. The source did not mention any specific names of individuals who had been critical of MILLER but Mr. [redacted] believes only a small percent of the membership of the UMWA opposes MILLER. The source also stated he had not heard any specific individual make a direct threat against MILLER.

b6
b7C
b7D

[redacted] stated he promised the source of his information he would not reveal the identity of the source and he does not desire to do so. He stated the source informed him that he, the source, would deny making any statements concerning a possible threat against ARNOLD MILLER if the source is confronted with this information. [redacted] stated ARNOLD MILLER is aware there is dissension in the UMWA membership and he is aware
